

Carbon Capture and Storage Association Announces New Website and Brand Refresh

2nd November 2020, London - The Carbon Capture and Storage Association (CCSA), the trade body for the Carbon Capture, Utilisation and Storage (CCUS) industry in the UK, today launches its new [website](#) and refreshed brand.

The new website represents a cleaner, fresher look for the CCSA whilst focussing on the key benefits that CCUS brings to the economy; *Delivering Net Zero, Transforming Regions* and *Creating Clean Industries*. The website also showcases UK CCUS clusters in development as well as the broad range of projects in operation around the world.

Luke Warren, Chief Executive of the CCSA, said:

“Our new refreshed logo and icon creates a strong visual identity for the CCSA. Alongside our new website, this enables us to ensure that we continue to act as the voice of the CCUS industry, emphasising the vital role that CCUS will play in meeting our net zero goals across the economy whilst delivering a resilient green recovery”.

ENDS

Notes to Editors

The new CCSA website can be found [here](#).
